PROFESSIONAL SUMMARY

AI/ML graduate (B.Tech AIML, 2026) with hands-on experience in AI-powered application development, web designing, and structured problem-solving. Skilled in Python fundamentals, prompt engineering techniques including zero-shot, few-shot, and chain-of-thought, and web development basics (HTML, CSS, JavaScript). Growing interest in agentic AI and autonomous LLM-driven workflows. Passionate about building reliable software and solving real-world problems through clean, adaptable thinking.

INTERNSHIPS

Web Development with Django Intern | **APSSDC** *Apr – Jun 2025*

- Built a full-stack Library Management System using Django, HTML, CSS, JavaScript, and SQLite with user authentication, admin dashboard, and book return reminders.
- Applied structured AI-driven thinking to map complex requirements into systematic, testable application workflows.

Cloud & DevOps Intern | **Demy Software Solutions** *Jun – Jul 2024*

- Gained hands-on experience with AWS EC2, cloud infrastructure management, and real-world DevOps pipelines strengthening deployment skills for AI/ML production environments.

PROJECTS

Mental Health Detection Using NLP — Final Year Project *Mar 2026*

- Developed an AI-powered journal emotion analysis application using the Gemini Flash API and curated text datasets to classify journal entries into emotional categories such as anxiety, depression, and neutral through text data.
- Crafted and implemented the complete workflow including advanced prompting strategies (zero-shot, few-shot, and chain-of-thought), journaling interface, emotion insights dashboard, and history tracking system for structured wellness monitoring and analysis.

Library Management System *May 2025*

- Developed a full-stack Django web application with CRUD operations, admin panel, user authentication, and database-driven book management — demonstrating structured software engineering skills.

TECHNICAL SKILLS

Languages: Python, SQL, HTML, CSS
Prompt Engineering: Zero-shot,One-shot, few-shot, chain-of-thought, role prompting, prompt chaining, output formatting, LLM parameter tuning
AI / ML & NLP: TensorFlow, PyTorch, Scikit-learn, NLTK, spaCy, Gemini Flash API, Hugging Face
Data & Visualisation: Pandas, NumPy, Matplotlib, Seaborn
Web & Backend: Django, SQLite
Dev Tools: Google Colab, VS Code, Git,
Soft Skills: Analytical thinking, structured communication, teamwork, adaptability

EDUCATION

B.Tech — Computer Science, Artificial Intelligence & Machine Learning Visakhapatnam, AP
Nadimpalli Satyanarayana Raju institute of technology 2022-2026

Board of Intermediate Education Vizianagaram, AP
Kalam's Junior College 2020 – 2022

CERTIFICATIONS

- NVIDIA: Prompt Engineering and Data Analysis
- Generative AI: Introduction and Applications
- Python Basics — Core Programming Foundations
- HTML, CSS and JavaScript for Web Developers
- Introduction to Databases for Back-end Development
